

# 2020 KPP VIRTUAL FALL PLANNING SUMMIT 5-PART SERIES

## Register Today!

Kansas Power Pool is switching gears to transition the annual KPP Fall Planning Summit to a virtual event to ensure our members can still learn, network, and communicate safely from their own offices or remote workstations. Join us for a series of events from August 28th-Sept 5<sup>th</sup> over the lunch hour.

We have a headline of nationally known speakers such as Joy Ditto, APPA CEO & President and Dennis Pidherny from FitchRatings. Also tune in to hear Victor Lay from Spring Hill, Tennessee describe the trials and tribulations of a full-blown cyber attack on their city. KPP Staff will highlight a few exciting projects that will be moving the needle towards the KPP Strategic Plan objective of assisting members in the area of technology, safety, and distribution system design.

Contact Brooke Carroll, [bcarroll@kpp.agency](mailto:bcarroll@kpp.agency) to get registered today!
